

Jimmy D Psalmist - I Trust In You Lyrics

LYRICS

Lord I trust in you with all my heart I lean not on my own understanding In all my ways I acknowledge you For you are not a man that you should lie You will do wat you said you will do You will make a way were there's no way You're the master of the universe All power's in your hand I will rather put my every trust in you I trust in you My hope is in you You have never failed me And you will never fail I trust in you My hope is in you You will never fail me You

You're the God that never fail Lord I trust in you with all my heart I lean not on my own understanding In all my ways I acknowledge you For you are not a man that you should lie You will do wat you said you will do You will make a way were there's no way You're the master of the universe All power's in your hand I will rather put my every trust in you I trust in you My hope is in you You have never failed me And you will never fail I trust in you My hope is in you You will never fail me You You're the God that never fail
